Education

- Ecole Supérieur Privée d'Ingénierie et de Technologies 2019 - Present

Employers

- **HLi Group**: Developed and optimized internal .NET web applications. (Internship) 2021, 2 Months.
- **Thermecatex**: Helped develop and migrate to a new inventory system. (Internship) 2019, 1 Month.

Open Source

In my spare time, I like to give back to the open source community, I've also authored my own tools over the years:

- **macchina**: A cross-platform system information fetcher with an emphasis on performance, which has recently become a popular contender to many well-established tools.
- **libmacchina**: A cross-platform library for retrieving system information, from uptime and battery information, to the number of packages you have installed.
- **citron**: A memory-friendly tool delivering system data via on-demand notifications, replacing the need for the traditional taskbar.
- **paspio**: A password entropy calculator/library.

Skills

Programming Languages:

- Proficient in **Rust**
- Comfortable with **PHP**
- Acquainted with **Python**
- Well-versed in **shell scripting**
- Proficient in **(PL/)**SQL

Markup Languages:

- Proficient in **Markdown**
- Comfortable with **Org Mode**
- Comfortable with **HTML**

Tools & Technologies:

- **Linux**, using it daily.
- **Git**, the passenger to all my rides.
- **Vim**, favorite language.
- **Emacs**, preferred operating system.
- **L^AT_EX**, still a beginner.
